Workshop registration:

Workshop A:

PACT with children with no or emerging language skills (basic words associations)
This workshop includes the fundamental skills training for parents who may want to help their children to develop and enjoy their parent-child interaction time. We will provide theories, video demonstrations, and also time for you to practice using these skills during the workshop.

Workshop B:

PACT with children with developing language skills (starting to connect words or phrases with a view to develop sentence structure)
Now that your child has developed the interest to play with you, it is time to help them learn more language and social skills through this valuable interaction. We will include more skills to help you to prepare your child to gradually develop more appropriate use of language.

Please check the workshops you would like to join.
